AGNES SCOTT COLLEGE

History and Purpose

AGNES SCOTT is a privately endowed college for women located at Decatur, Georgia, in the metropolitan Atlanta area. It has a student body averaging five hundred and seventy-five to six hundred and a four-year program of study leading to the Bachelor of Arts degree.

The College was founded in 1889 as Decatur Female Seminary, renamed Agnes Scott Institute in 1890 in honor of the mother of the founder, Colonel George W. Scott, and chartered as Agnes Scott College in 1906. Its three presidents have been Frank Henry Gaines (1889-1923); James Ross McCain (1923-1951); and Wallace McPherson Alston (1951-).

Agnes Scott was founded by Presbyterians and has always had a close relationship to that church. The College is not controlled or supported by the church, however, and special care is taken not to interfere in any way with the religious views or church preferences of students.

A commitment to the liberal arts program, insistence upon quality in education, and emphasis on the development of Christian character are foundation principles of the College. Strengthening these purposes are small classes, close faculty-student relationships, continuity of leadership, and a varied program of student activities. Participation in the University Center, a group of seven institutions of higher learning in the Atlanta area, provides social and educational resources beyond the limits of the college campus.

Financial Resources

The College has a campus of sixty-two acres and forty-eight buildings. Its assets amount to more than \$13,000,000, of which \$8,100,000 is in endowment.

Educational Recognition

In 1907 Agnes Scott was admitted to membership in the Southern Association of Colleges and Secondary Schools. In 1920 the College was placed on the approved list of the Association of American Universities and in 1926 it was granted a charter by the United Chapters of Phi Beta Kappa. It was a charter member of the American Association of University Women and of the Southern University Conference.

University Center

While Agnes Scott is a privately controlled liberal arts college, it is also a part of a larger group of institutions which form the University Center in Georgia. In the group are Emory University, Georgia Institute of Technology, the University of Georgia at Athens, Columbia Theological Seminary, Atlanta Art Association, Oglethorpe University, and Agnes Scott College. Chief features of this cooperative program are reciprocity in library services, exchange of instructors, administration of grants for research, and the avoidance of duplication and overlapping in certain areas of instruction.

ADMISSION OF STUDENTS

AGNES SCOTT has a resident student capacity of approximately five hundred and forty. Total enrollment, including resident and non-resident students, averages five hundred and seventy-five to six hundred. Applicants whose homes are not in the local community must apply for admission as resident (boarding) students. Exception may be made if they can live with close relatives. Applicants whose homes are in the local community may apply for admission as non-resident (day) students.

Correspondence regarding admission should be addressed to the Director of Admissions.

Admission to the Freshman Class

In determining admission, the Committee on Admissions considers the candidate's academic preparation, general ability and interests, character, personality, and health. Criteria for judging admission qualifications include the secondary school record with statement of graduation and rank in class, College Entrance Examination Board test results, principal's recommendation, health report, and additional personal data and recommendations which the College secures.

1. *Academic Preparation.* Agnes Scott believes that courses taken in secondary school should be relevant to courses offered in college in order to provide continuity in the total program of study. Skill in English composition, ability to read with comprehension, some competence in at least one foreign language, and some understanding of scientific principles and methods are important in preparation for the program here; preference will be given to applicants who present evidence of this preparation.

Candidates for admission are expected to take a minimum of four academic subjects each of the four years in secondary school. The following subjects are strongly recommended or required:

English composition, grammar, and literature; four years required.

Mathematics: elementary and intermediate algebra, plane geometry; required.

Foreign language: three or four years in one foreign language (preferably Latin), or two years in each of two foreign languages recommended. A minimum of two years in one foreign language required. No entrance credit given for a single year in a language.

Science: one or more laboratory sciences (biology, chemistry, or physics) recommended.

History: two years (preferably European and United States history) recommended.

Elective credits may be chosen from the foregoing subjects. Credits may also be presented in art history and appreciation; Bible; and music theory, history, and appreciation.

No entrance credit is given for physical education, glee club, band, and other extra-curricular activities. While typing is considered a helpful skill, it should not be offered as one of the sixteen entrance credits.

2. *Filing of Application.* The application for admission form will be furnished on request and may be filed on or after October 15 of the candidate's senior year in secondary school. The resident student application is to be accompanied by a registration fee of \$50.00 and the non-resident application by a fee of \$10.00. If the application is accepted, the fee is credited on the September payment. The fee will be refunded on request on or before May 30 of the year of entrance; after that date it will not be refunded unless the preparation of the applicant is insufficient or unless the College finds it impossible to admit her.

Early application is advised. The resident student appli-

cation should be filed before February 15 and the non-resident before August 1. The Admissions Committee reserves the right to decline to consider applications filed after these dates.

A statement regarding admission procedure is mailed with each application form and should be studied carefully by the student.

3. *Secondary School Transcript of Record.* Prior to, or at the time of filing the application for admission, the student should request the secondary school to submit a transcript of courses and grades to date. Certificate blank provided by the College is to be used. No information regarding admission can be given until this record has been sent to the Office of Admissions.

If the candidate's transcript of record and application are filed prior to the end of the first semester, the College will send her a form on which her first semester grades may be recorded. At the end of the school year the College will secure from the high school an official report of senior grades and statement of graduation.

It is advisable that prospective applicants send during the junior year, or earlier, an informal statement of courses taken and grades made. A form for the purpose may be obtained from the Admissions Office. The sending of this information will enable the Office to evaluate credits and offer advice on subsequent preparation. The student is under no obligation to apply for admission.

4. *Scholastic Aptitude and Achievement Tests.* All applicants must take, during the senior year, the Scholastic Aptitude Test and three Achievement Tests of the College Entrance Examination Board. No special preparation is required; scores made are only one of several items considered in measuring the candidate's ability and academic preparation. The Scholastic Aptitude Test should be taken in December or January; the Achievement Tests are to be

taken in March (or in December by a mid-year graduate). Three Achievement Tests are required: the English test and two other tests chosen from two different fields (foreign language, social studies, science, and mathematics).

The candidate should write to the College Entrance Examination Board for a Bulletin of Information, which contains an application blank, rules regarding applications, lists of examination centers, and information about tests. The address of the Board is Box 592, Princeton, New Jersey, or (for candidates who live in western states) Box 27896, Los Angeles 27, California. The application should be completed and mailed to the Board, with the appropriate fee, several weeks in advance of the testing date.

The Board has set the following examination dates for the remainder of the academic year 1957-1958: February 8, March 15, May 17 (primarily for secondary school juniors). Dates for the 1958-1959 series are December 6, January 10, February 14, March 14, May 16 (primarily for juniors).

Secondary school juniors who are interested in this college are urged to take (for practice purposes) the Scholastic Aptitude Test in March or May; they should have the results forwarded to Agnes Scott.

5. *Advanced Placement Tests.* Students who wish to be admitted to more advanced courses than those offered in the regular freshman program may write to the College Board Advanced Placement Examinations, Box 592, Princeton, New Jersey, or Box 27896, Los Angeles 27, California for application blanks, or may secure the information from their schools. The examinations will be given in May. Students who have not had special preparation beyond regular secondary school level work are advised not to register for these examinations.

6. *Acceptance of Application.* Candidates are mailed acceptance letters in the spring. These letters assume the sat-

isfactory completion of courses in progress and a satisfactory medical report.

7. *Medical Report.* Forms for the medical report are forwarded immediately after May 30 to accepted candidates. The report has two parts — one to be filled out by the student and one by her physician. Both parts are to be filled out in their entirety and returned by September 1 at the latest.

8. *Assignment of Rooms and Roommates.* Rooms and roommates are assigned by the Dean of Students and her staff in late August and early September. Information about assignments is not available until the student arrives in September. However, special requests regarding rooms or roommates may be filed with the Admissions Office for referral to the Dean of Students. Such requests will be honored if possible. In general, assignments are made according to the date that dormitory space is reserved. Every effort is made to place together students who will be congenial.

9. *Appointments at the College.* Visitors are welcome. Appointment should be made in advance in order that the student may talk with a member of the admissions staff and have the opportunity of seeing the campus with a guide. The admissions office is open (except during holiday periods) on Monday through Friday from nine to twelve and two to four and on Saturdays from nine to twelve. If an appointment cannot be made at the College, it is possible that an interview can be arranged in or near the applicant's home or school.

Admission to Advanced Standing

A limited number of students from other institutions may be admitted each year to the sophomore and junior classes. Each applicant must fulfill the requirements for admission to the freshman class, using her transferred credits if

necessary. She must present transcripts of her secondary school and college records, a copy of the college catalogue with the courses taken indicated, a statement of honorable dismissal, and the results of the Scholastic Aptitude Test of the College Entrance Examination Board. Because admission on this basis is limited, the College advises only those students to apply who have made good records and who have followed a course corresponding to the Agnes Scott program. All credits are tentative and dependent on satisfactory work at Agnes Scott.

Candidates for the degree must complete the work of the junior and senior years in this college.

ADMINISTRATION OF THE CURRICULUM

Registration

STUDENTS are required to register at the beginning of the fall and winter quarters.

Students reporting for admission in the fall go first to the Registrar's office, where they are registered and given matriculation cards. They then meet with the appropriate course and schedule committees. Students who have not paid fees in advance report first to the Treasurer. A student who fails to complete her registration during the announced registration period is charged a fee of \$5.00.

Each student is required to register before attending her first class in the winter quarter. A student who returns from Christmas vacation in time to attend her first class, but who fails to register before doing so, is subject to an automatic penalty of a \$5.00 late registration fee.

A student returning late from Christmas vacation is subject to the penalty of a \$5.00 late registration fee unless her absence is excused by the Committee on Absences. If the absence is not excused, the student loses the privilege of voluntary class attendance for the winter quarter or, if she is already ineligible for the privilege of voluntary class attendance, is subject to the unexcused absence penalty imposed on students who are on the excuse system.

Selection of Courses

Students are expected to make themselves thoroughly familiar with the plan of the curriculum and to arrange their courses to conform with its requirements.

During the spring quarter of each year, all students in residence file with the Registrar cards indicating tentative course selection for the next session. These course cards are approved or revised by the Committee on Courses for Upper Classmen. At the time of registration in September, the cards are obtained from the Committee and presented to instructors for signature at the first meeting of each class. They are then returned to the Registrar's office.

During the summer, students entering as freshmen indicate tentative course selection on forms provided by the College. These forms are returned to the Admissions office and are approved or revised by the Committee on Courses for Freshmen. At time of entrance in September, freshmen meet with the Committee for confirmation of course selection.

Credit Hours

Three quarters make up the college year. Credit for courses taken is given in terms of quarter hours. A course scheduled for three hours a week for one quarter will give a credit of three quarter hours toward the one hundred eighty quarter hours of academic work required for the degree. A course scheduled for three hours a week for the entire college year will give a credit of nine quarter hours toward the degree.

The quarter hour is mathematically equivalent to two-thirds of a semester hour.

Limitation of Hours and Courses

The maximum number of credit hours a week for freshmen is sixteen and the minimum fourteen.

The maximum number of credit hours a week for sophomores, juniors, and seniors is eighteen and the minimum fourteen. Permission to carry eighteen hours is restricted

to students who have made a B average for the preceding quarter; such permission is granted by the Committee on Courses for Upper Classmen.

Not more than two courses, or a total of ten quarter hours, may be taken under any one instructor in any given quarter.

Not more than twenty-five hours may be taken in one subject in any one session, and not more than sixty-three hours in one department may be presented for the degree. (See statement under Major and Related Hours.) If more than sixty-three hours are elected in one department, they must be in excess of the one hundred eighty required for the degree.

Students will not be permitted to audit courses unless they have written permission from the Dean of the Faculty. Such permission is given in a limited number of cases; the student's previous academic record, the number of credit hours being carried, and the recommendation of the major department are factors considered.

Course Changes

A course of study which has been approved cannot be changed without the permission of the appropriate course committee. No new course may be elected after the first ten days of a quarter. No course may be dropped after the second Tuesday in November for the fall quarter, the second Tuesday in February for the winter quarter, or the first Tuesday in May for the spring quarter; exception may be made only with the permission of the appropriate course committee and the Dean of the Faculty.

Class Attendance

Attendance at all academic appointments is required of all freshmen during the first quarter (and of those freshmen during the second quarter whose grade in any academic subject is below C), of students on the ineligible list, and of students who for any reason are on probation. It is expected that other students will keep all academic appointments and will not be absent without just cause. The responsibility for any work missed because of absence rests entirely upon the student.

Attendance at tests announced a week in advance is mandatory. Attendance at classes is required the day before and the day after a holiday.

Examinations

General examinations are held at the end of each quarter. Attendance is required. A student absent from examination because of illness may take the examination in question at the regular time scheduled for re-examinations (see below). A student absent without excuse from the Dean of Students or the physician is automatically excluded from college.

Re-examinations are permitted in the case of conditional failure. These examinations are given in the first week of the quarter following failure. Those failing in a re-examination are required to repeat the course or forfeit the credit.

A "special" examination is given only with the permission of the Dean of Students in response to a written request from the student. This request must state why it is necessary to take the examination at a time other than that announced. If permission is granted, the student must present the Dean of Students' receipt for \$5.00 before the instructor is authorized to give the examination.

Grading System

Grades indicating the student's standing in any course are officially recorded as follows: A, excellent attainment; B, good attainment; C, average attainment; D, passable attainment; E, failure with privilege of re-examination; F, failure without privilege of re-examination.

Grades are evaluated by a quality point system: A = 3 quality points per quarter hour, B = 2, C = 1, D = 0. For a statement of the grade and quality point requirements for class standing and for graduation, see sections on Classification of Students and Requirements for the Degree.

Automatic Exclusion

A student whose work is very unsatisfactory at the end of any quarter may be asked to withdraw from the college or by vote of the faculty may be put on probation for the remainder of the year. If by the end of the session a student has failed to earn at least thirty quarter hours of degree credit in academic work she is automatically excluded for the next year.

A student who fails for two successive years to meet the requirements for advancement to the next higher class is automatically excluded.

A student whose continuance in college may involve danger to her own health or to that of others may be asked to withdraw.

A student who is not in sympathy with the ideals and standards of the College or who is not mature enough for its program may be asked to withdraw. In such cases the judgment of the administrative officers is sufficient, and it is not necessary that specific charges be made.

THE BACHELOR OF ARTS DEGREE

AGNES SCOTT COLLEGE confers the degree of Bachelor of Arts. A plan of distribution and concentration is followed, with major work selected at the end of the sophomore year. Candidates for the degree must present one hundred eighty quarter hours of academic work of which half must be of grade C or above. (Beginning with the class that entered in 1957, one hundred eighty quality points must be earned.) A grade of C or above must be made in not less than forty-eight quarter hours in the junior and senior years, and in not less than twenty-one hours in either of these years. Summer session work may not be used to fulfill grade requirements for classification or for the degree.

Candidates for the degree must complete the work of the junior and senior years in this college.

Required Courses

Certain courses are required, as listed below, and others are elective. The program of work for each student must be approved by the Committee on Courses for Freshmen or the Committee on Courses for Upper Classmen and may not be changed without the permission of the appropriate Committee.

A. Specific requirements:

English 101	9 quarter hours
Bible 101 or 201	9 quarter hours
Physical Education, 3 periods a week during the first 6 quarters of residence	

B. Group requirements, with options:

<i>Group 1.</i> a. Foreign Language	9 or 18 quarter hours
Latin, Greek, French, German, Spanish. A language based on two or more high school units may be continued	

for a minimum of one year (9 hours), or a new language may be taken for a minimum of two years (18 hours). Students admitted with only two units in one foreign language are required to take a minimum of two years (18 hours) in one language in college.

b. Literature 9 quarter hours

Choice of a literature course in English (English 211) or a literature course in a foreign language. If a literature course in foreign language is used to satisfy this requirement, it must be a course beyond the intermediate level and it cannot be in the language used to satisfy requirement *a* in this group.

Group 2. Science and Mathematics 21 quarter hours

Biology, Chemistry, Physics, Astronomy, Mathematics. The equivalent of a year course must be completed in each of two departments. One course (12 hours) must be in a laboratory science.

Group 3. a. Choice of History 101 or 215, Classics 150, Philosophy 201 9 quarter hours

b. Choice of Economics 201, Political Science 201 (unless History is offered under *a*), Psychology 201, Sociology 203-205 9 quarter hours

The specific and group requirements for the degree must be completed by the end of the sophomore year with such exceptions as the Committee on Courses for Upper Classmen permits. No student shall be classified as a regular freshman unless she is taking English 101 and one course from each of Groups 1 and 2.

Additional work in English composition may be required of any student who gives evidence of inability to write correctly, even though English 101 may have been passed.

Freshman Program

Freshmen will make a tentative selection of courses during the summer preceding admission. Full instructions will be sent from the Admissions Office.

The freshman course of study usually includes five aca-

demic subjects and physical education. The following courses must be elected, with the options indicated above: English 101; a foreign language; a science and/or mathematics. Since two courses in Group 3 are required for the degree, it is generally advisable to take one in the freshman year; in this field, History 101 and Classics 150 are open to first-year students. Courses in art, Bible, music, and speech are also available.

Major and Related Hours

The major and related hours must be planned by each student in the spring quarter of the sophomore year and approved by the department concerned.

The major department shall control a minimum of fifty-one quarter hours and a maximum of sixty. The hours shall be distributed as follows: thirty-six to fifty-one quarter hours in one subject, including the basic course, and nine to twenty-four quarter hours in closely related fields, with a minimum of nine in one department. An exception may be made in the departments of Art, Music, History and Political Science, and Economics and Sociology, where the major may consist of fifty-one to sixty hours without related work in another department. Exception may also be made in the department of Chemistry for students who wish to meet the requirements of the American Chemical Society.

The limitation upon the number of hours in the major subject does not apply in the case of courses which may not be counted in the major (Music 101, elementary modern language, for example). However, no more than sixty-three hours may be taken in the major department unless the excess hours represent work beyond the one hundred eighty hours required for the degree.

The independent study program is not included in any of the above limitations.

Unless specifically excused by the major department and the Committee on Courses for Upper Classmen, the student must continue her major subject throughout the junior and senior years and must take at least twenty-seven hours in the major subject during these years. A minimum of eighteen of the twenty-seven hours must be completed with a grade of C or above.

Major work is offered in the following subjects: Art, Bible, Biology, Chemistry, Classics, Economics, Economics and Sociology, English, French, German, Greek, History, History and Political Science, Latin, Mathematics, Music, Philosophy, Physics, Psychology, Sociology, and Spanish. Through an agreement with Emory University, major work is offered in Business Economics.

An interdepartmental major is offered in Science. This major is primarily for premedical students and for students planning to teach science in secondary school. The major for students interested in medicine or medical technology should consist of: Biology 101, 304, 305, 306; Chemistry 101, 201, 203, 205, 207; Physics 101. For those who plan to teach science the major shall consist of approximately the same total number of hours, but courses may be varied with the approval of the department of primary interest.

The Junior Year Abroad

Qualified students may substitute for the work of the junior year at Agnes Scott a year of study abroad under the direction of a group approved by the College. To be eligible for the junior year abroad, a student must have high standing in the work of the first two years and must be recommended by her major department and by the language department involved. Any student who may wish to apply for the year abroad should file written request in the office of the Dean of the Faculty before February 1 of her sophomore year.

Program of Independent Study

Seniors who are qualified on the basis of their general college records may be invited to participate in a program of independent study involving concentrated work in the major field. Through such a program the College believes that intellectual values not possible in the routine plan of courses may be achieved.

The program may be offered for one, two, or three quarters and for credit of three or five quarter hours, with a maximum total credit of ten quarter hours. The course number in each department is 490.

Summer Courses

Students may attend accredited senior college summer schools. Courses and credits must be approved by the Dean of the Faculty before the close of the regular college session. A student who attends summer sessions in order to accelerate her academic program must have her entire plan of acceleration approved by the Dean of the Faculty.

The number of hours a student may take in one summer session will depend upon the quality of her work at Agnes Scott, upon the nature of the courses chosen, and upon the length of the summer session. Under no circumstances will more than fifteen quarter hours be approved for a single summer session. Total summer session credits counted toward the degree may not exceed thirty quarter hours. In order to receive credit, the student must make a grade higher than the passing grade (for example, C when the passing grade is D).

COURSES OF INSTRUCTION

1958-1959

COURSES numbered 101 to 199 are open primarily to freshmen and sophomores; Courses 201 to 299 to sophomores and juniors; Courses 301 to 399 to juniors and seniors; and Courses 401 to 499 to seniors only. Courses open to lower classes are also open to upper classes unless stated to the contrary.

Fall quarter courses are designated by *a*, winter quarter courses by *b*, spring quarter courses by *c*. Numbers with hyphenated letters indicate courses extending through two quarters. Numbers without letters indicate courses extending throughout the year. No credit is given for a course until the entire course is completed.

Program of Independent Study

In each department offering a program of independent study, the course number 490 is used. The program may be offered for three or five hours per quarter, with a maximum total credit of ten quarter hours. Seniors may elect this program on invitation.

Emory University Courses

Under a cooperative agreement, upperclassmen may take courses at Emory University. Permission for such courses must be secured from the Chairman of the Course Committee and is usually limited to courses not offered at Agnes Scott.

ART

Professor WARREN

Associate Professor HUPER

Assistant Professor WESTERVELT

The objective of the Department of Art is to give training in appreciation, to help students form standards of taste, and to promote culture in the entire community. The Department offers a balanced program of practice, theory, and history, so integrated as to bring effectively into a liberal education the essential values of the visual arts.

No previous art experience is necessary for admission to applied art courses on the 100 level.

Basic Courses

101a. INTRODUCTION TO THE FINE ARTS. An introduction to the pictorial, structural, and plastic arts. A course in the theory of art. A brief discussion of art criticism, aesthetics, the social and psychological functions of art, and the philosophy of art.

Fall quarter:

Section A: Monday, Wednesday, Friday 8:30. *Miss Huper*

Section B: Monday, Wednesday, Friday 11:10. *Mr.*

Westervelt

Credit: Three quarter hours

Section A is primarily for freshmen.

102b. INTRODUCTION TO THE FINE ARTS. Continuation of 101a. A non-technical analysis and criticism of prehistoric art, the art of ancient Egypt, Mesopotamia, Greece, Rome, the Americas, and Medieval art.

Winter quarter:

Section A: Monday, Wednesday, Friday 8:30. *Miss Huper*

Section B: Monday, Wednesday, Friday 11:10. *Mr.*

Westervelt

Section A is primarily for freshmen.

103c. INTRODUCTION TO THE FINE ARTS. Continuation of 102b. A non-technical analysis and criticism of the art of the Renaissance and the eighteenth, nineteenth and twentieth centuries.

Spring quarter:

Section A: Monday, Wednesday, Friday 8:30. *Miss Huper*

Section B: Monday, Wednesday, Friday 11:10. *Mr.*

Westervelt

Credit: Three quarter hours

Section A is primarily for freshmen.

199 a, b, c. ART STRUCTURE. Fundamentals of design. A study of the visual elements and the principles of composition, with attention to works of the masters.

a. Introduction to the language of art.

Section A: Drawing, still life, and figure. *Mr. Warren*

Section B: Pictorial and plastic arts and crafts. *Miss Huper*

b. Basic design. Study of the visual elements: line, color, texture, volume, and space. *Mr. Westervelt*

c. Materials and methods in the creative process.

Section A: Graphic media. *Mr. Warren*

Section B: Plastic media. *Mr. Westervelt*

Offered each quarter: Thursday 12:10 (subject to change)

Studio: Tuesday, Thursday 1:40-4:40.

Credit: Three, six, or nine quarter hours

Section B (fall and spring quarters) is for students meeting teacher education requirements.

Studio Courses

249a. ELEMENTS OF FORM. Basic form concepts as they relate to sculpture, ceramics, and the allied plastic arts. Experiments in various media. *Mr. Westervelt*

Fall quarter: One hour to be arranged

Studio: Monday, Wednesday 1:40-4:40

Credit: Three quarter hours

Prerequisite: Art 199 (minimum of six hours), or permission of instructor. Not open to students who have had Art 250.

251b. DRAWING AND PAINTING. Continuation of 249 with attention to problems of color. Watercolor and tempera. Introduction to oil painting. *Mr. Warren*

Winter quarter: One hour to be arranged

Studio: Monday, Wednesday 1:40-4:40

Credit: Three quarter hours

Prerequisite: Art 249 or permission of instructor

252c. PAINTING. Picture structure, problems in still life, landscape, and figure composition. Study of grounds, mediums, and pigments. *Mr. Warren*

Spring quarter: One hour to be arranged

Studio: Monday, Wednesday 1:40-4:40

Credit: Three quarter hours

Prerequisite: Art 251 or permission of instructor

310 a, b, c. ADVANCED SCULPTURE, CERAMICS. Problems in form, ranging from architectural decoration to design of wheel-thrown stoneware. *Mr. Westervelt*

Offered each quarter: One hour to be arranged

Fall quarter studio: Tuesday, Thursday 1:40-4:40

Winter quarter studio: Monday, Wednesday 1:40-4:40

Spring quarter studio: Hours to be arranged

Credit: Three, six, or nine quarter hours

Prerequisite: Art 249 or permission of instructor

350a, b, c. ADVANCED DRAWING AND PAINTING. Creative work in various media — oil, gouache, encaustic, and transparent watercolor. Emphasis on aesthetic considerations of picture structure. *Mr. Warren*

Offered each quarter: Hours to be arranged

Credit: Three, six, or nine quarter hours

Prerequisite: Art 252 or permission of instructor

History and Criticism of Art

207a. MODERN ART: PAINTING AND SCULPTURE. The history and criticism of painting and sculpture from 1785 to 1900. Main emphasis on French and American art, but special attention given to the art of Germany, Italy, England, and Latin America. *Miss Huper*

Fall quarter: Tuesday, Thursday, Saturday 9:30

Credit: Three quarter hours

208b. MODERN ART: PAINTING AND SCULPTURE. The history and criticism of painting and sculpture from 1900 to the present. Main emphasis on French and American art, but special attention given to the art of Germany, Italy, England, and Latin America. *Miss Huper*

Given in alternate years; offered in 1958-1959

327c (formerly 207). THE LETTERS OF PAUL. An historical and literary study relating the characteristic religious thought of Paul to social, moral, and religious questions of twentieth century Christendom. *Miss Boney*

Spring quarter: Monday through Friday 8:30

Credit: Five quarter hours

Prerequisite: The basic course

Given in alternate years; offered in 1958-1959

Requirements for the Major

Basic course: Bible 101 or 201

Required Bible courses: 306, 317, 323, 325

Required language course: Greek 203

Elective courses to complete the major and to meet the requirement of related hours must be approved by the department.

The department advises for the Bible major the election of courses in classical literatures, philosophy, psychology, and sociology.

BIOLOGY

Professor BRIDGMAN

Assistant Professor GROSECLOSE

Miss SALYERDS

Mrs. GRAY

General Biology

101. GENERAL BIOLOGY. The fundamental principles of biology as exemplified by a study of elementary botany, zoology, physiology and the important theories of heredity. The work of the three quarters is coordinated and forms a course in general introductory biology. *The Staff*

Throughout the year:

Section A: Monday, Wednesday, Friday 9:30

Section B: Monday, Wednesday, Friday 11:10

Section C: Monday, Wednesday, Friday 11:10

Section D: Tuesday, Thursday, Saturday 8:30

Laboratory: Section A or B: Wednesday or Thursday
1:40-4:40

Section C or D: Monday or Tuesday 1:40-4:40

Credit: Twelve quarter hours

302c. EVOLUTION. The theory and evidence of organic evolution. *Miss Bridgman*

Spring quarter: Tuesday, Thursday, Saturday 9:30

Credit: Three quarter hours

Prerequisite: Biology 101

303a-b. GENETICS. The principles of heredity and variation. *Miss Bridgman, Miss Salyerds*

Fall and winter quarters: Tuesday, Thursday 9:30

Conference: Saturday 9:30

Laboratory: Two hours to be arranged

Credit: Without laboratory, four quarter hours; with laboratory, six quarter hours

Prerequisite: Biology 101

The laboratory work is required of students majoring in biology.

Botany

- 202c. PLANT TAXONOMY. The principles of plant classification and a taxonomic study of the higher plants native to this locality.
Spring quarter: Wednesday, Friday 8:30
Laboratory: Friday 1:40-4:40
Credit: Three quarter hours
Prerequisite: Biology 101
- 203a. ECONOMIC BOTANY. A course designed to show the relations of botany to human society. Studies from historical developments to modern applications of plant products.
Fall quarter: Monday, Wednesday, Friday 8:30
Credit: Three quarter hours
Prerequisite: Biology 101
Given in alternate years; not offered in 1958-1959
- 204b. ANATOMY AND MORPHOLOGY OF VASCULAR PLANTS. A basic course in plant anatomy dealing with the structure, reproduction, and development of higher plants.
Winter quarter: Wednesday, Friday 8:30
Laboratory: Wednesday 1:40-4:40
Credit: Three quarter hours
Prerequisite: Biology 101
- 301b. MICROBIOLOGY. A basic course in the principles and techniques of microbiology with emphasis on the relationship of microorganisms to man.
Winter quarter: Tuesday, Thursday, Saturday 11:10
Laboratory: Tuesday 1:40-4:40; three hours to be arranged
Credit: Five quarter hours
Prerequisite: Biology 101, Chemistry 101
- 308c. THALLOPHYTES. A study emphasizing the morphology and physiology of the algae and fungi. The importance of fungi as plant pathogens is also considered.
Spring quarter: Tuesday, Thursday, Saturday 11:10
Laboratory or field: Monday, Wednesday 1:40-4:40
Credit: Five quarter hours
Prerequisite: Biology 101
- 311a. PLANT PHYSIOLOGY. Some aspects of experimental studies devoted to the nutrition, metabolism, and growth of higher plants.

Fall quarter: Monday, Wednesday, Friday 8:30

Laboratory: Tuesday 1:40-4:40; three hours to be arranged

Credit: Five quarter hours

Prerequisite: Biology 101, Chemistry 101

Given in alternate years; offered in 1958-1959

Zoology

201c. ANIMAL ECOLOGY. The basic principles of animal ecology with lectures and field work emphasizing the relationship of animals in natural habitats. Land, fresh water and salt water environments are considered. *Miss Salyerds*

Spring quarter: Monday 11:10

Laboratory or field: Tuesday, Thursday 1:40-4:40

Credit: Three quarter hours

Prerequisite or corequisite: Biology 101

207a-b. INVERTEBRATE ZOOLOGY. The development, structure, relationships and distribution of the major invertebrate phyla. *Miss Bridgman, Miss Salyerds*

a. Protozoa and Acoelomate Invertebrates

b. Coelomate Invertebrates

Fall and winter quarters: Wednesday, Friday 8:30

Laboratory: Monday 1:40-4:40

Credit: Six quarter hours

Prerequisite: Biology 101

304b. COMPARATIVE CHORDATE ANATOMY. A study of the major organ systems of selected chordate types. Laboratory work includes dissections of amphioxus, dogfish, necturus, turtle, bird, and cat. *Miss Groseclose*

Winter quarter: Monday, Wednesday, Friday 9:30

Laboratory: Monday, Wednesday 1:40-4:40

Credit: Five quarter hours

Prerequisite: Biology 101

305c. HISTOLOGY AND MICROTECHNIQUE. Primarily a laboratory course with practical work in the more usual methods of histological and cytological technique. *Miss Groseclose*

Spring quarter: Tuesday, Thursday, Saturday 11:10

Laboratory: Wednesday 1:40-4:40; three hours to be arranged

Credit: Five quarter hours

Prerequisite: Biology 101

306a. EMBRYOLOGY. The fundamental facts of embryology, with especial reference to mammalian development. *Miss Groseclose*

Fall quarter: Monday, Wednesday, Friday 9:30

Laboratory: Tuesday, Thursday 1:40-4:40

Credit: Five quarter hours

Prerequisite: Biology 101

310c. GENERAL PHYSIOLOGY. The fundamental activities of living matter with some emphasis on human applications. *Miss Groseclose*

Spring quarter: Monday, Wednesday, Friday 9:30

Laboratory: Tuesday, Thursday 1:40-4:40

Credit: Five quarter hours

Prerequisite: Biology 101; prerequisite or corequisite: Chemistry 101

Requirements for the Major

Basic course: Biology 101. This course counts nine hours on the requirements for majors.

Required courses when zoology is the subject of primary interest: 207, 302, 303, 306

Required courses when botany is the subject of primary interest: 202, 204, 302, 303, 308, 311

Foreign language: German or French

Chemistry: 101 and either 201-203 or 205 a-b

Physics: 101 recommended

Elective courses to complete the major and to meet the requirement of related hours must be approved by the department.

Students planning an interdepartmental major in science must consult the department of primary interest.

C H E M I S T R Y

Professor FRIERSON

Associate Professor CRIGLER

Assistant Professor GARY

Mrs. FOX

101. GENERAL CHEMISTRY. The more important nonmetallic and metallic elements with special emphasis given to the fundamental laws and theories of chemistry. *Mr. Frierson*

Throughout the year:

Section A: Monday, Wednesday, Friday 9:30

Section B: Monday, Wednesday, Friday 11:10

Laboratory: Section A: Tuesday 1:40-4:40

Section B: Wednesday 1:40-4:40

Section C: Thursday 1:40-4:40

Credit: Twelve quarter hours

201a. QUALITATIVE ANALYSIS. Chemical equilibrium and related topics. *Mr. Frierson*

Fall quarter: Tuesday, Thursday 8:30

Laboratory: Two periods to be arranged from the following: Monday through Thursday 1:40-4:40

Credit: Four quarter hours

Prerequisite: Chemistry 101

203b-c. QUANTITATIVE ANALYSIS. Gravimetric and volumetric methods of analysis. *Mr. Frierson*

Winter and spring quarters: Tuesday, Thursday 8:30

Laboratory: Two periods to be arranged from the following: Monday through Thursday 1:40-4:40

Credit: Eight quarter hours

Prerequisite: Chemistry 201

205. ORGANIC CHEMISTRY. A study of the compounds of carbon. *Miss Crigler*

Throughout the year: Monday, Wednesday, Friday 8:30

Laboratory: Monday, Wednesday 1:40-4:40

Credit: Fifteen quarter hours

Prerequisite: Chemistry 101

Biology majors may take the fall and winter quarters only, for credit of ten quarter hours.

207c. BIOCHEMISTRY. A study of the compounds related to meta-

bolism; the chemistry of tissues. This course is designed primarily for premedical students and biology majors. *Miss Crigler*

Spring quarter: Monday, Wednesday, Friday 8:30

Laboratory: Monday, Wednesday 1:40-4:40

Credit: Five quarter hours

Prerequisite: Chemistry 205 a-b, Biology 101

302a, b, c. ADVANCED QUANTITATIVE ANALYSIS. Advanced analytical methods and modern instrumental methods of analysis. Any quarter may be taken independently. *Miss Gary*

Offered each quarter: Two hours to be arranged

Laboratory: Tuesday, Thursday 1:40-4:40

Credit: Four, eight, or twelve quarter hours

Prerequisite: Chemistry 203

303a-b. QUALITATIVE ORGANIC ANALYSIS. *Miss Crigler*

Fall and winter quarters: Wednesday 11:10; one hour to be arranged

Laboratory: Tuesday, Thursday 1:40-4:40

Credit: Eight quarter hours

Prerequisite: Chemistry 203, 205

405. PHYSICAL CHEMISTRY. Theoretical principles and their application. *Miss Gary*

Throughout the year: Monday, Wednesday, Friday 8:30

Laboratory: To be arranged

Credit: Twelve quarter hours

Prerequisite: Physics 101, Mathematics 204, Chemistry 203 and 205

Requirements for the Major

Basic course: Chemistry 101

Required chemistry courses: Chemistry 201, 203, 205, and twelve additional hours

Foreign language: German or French

Elective courses to meet the requirement of related hours must be approved by the department.

Students planning to take graduate work in chemistry should elect Chemistry 405 in addition to the above outlined major.

Students planning an interdepartmental major in science must consult the department of primary interest.

Students wishing to meet the standards set by the American Chemical Society for professional training in chemistry should consult the chairman of the department.

CLASSICAL LANGUAGES AND LITERATURES

Professor GLICK

Associate Professor ZENN

Assistant Professor YOUNG

Greek

101. ELEMENTARY. The essentials of forms and syntax; reading of selections from Xenophon and Plato; writing Greek. *Miss Zenn*

Credit: Nine quarter hours if taken as a fourth language, or if followed by Greek 201 and 202 or 203, or if a major in Latin is completed
- 201a. INTERMEDIATE. Review of forms and syntax. Plato: Apology or Crito, with selections from other writings of Plato. *Miss Glick*
Fall quarter: Tuesday, Thursday, Saturday 12:10
Credit: Three quarter hours if followed by Greek 202 or 203
Prerequisite: Greek 101
- 202b-c. HOMER: Iliad, Books I-VI. Dialect and content; sight translation; metrical reading. *Mrs. Young*
Winter and spring quarters: Tuesday, Thursday, Saturday 12:10
Credit: Six quarter hours
Prerequisite: Greek 201
- 203b-c. NEW TESTAMENT GREEK. A study of Luke and other writers. *Miss Glick*
Winter and spring quarters: Monday, Wednesday, Friday 3:00
Credit: Six quarter hours
Prerequisite: Greek 201
- 301a. GREEK TRAGEDY. Euripides: selected plays. *Mrs. Young*
Fall quarter: Tuesday, Thursday, Saturday 11:10

Credit: Three quarter hours

Prerequisite: Greek 202

Given in alternate years with 305a; not offered in 1958-1959

302b. GREEK LYRIC POETRY. *Miss Zenn*

Winter quarter: Tuesday, Thursday, Saturday 11:10

Credit: Three or five quarter hours

Prerequisite: Greek 202

A student whose major subject is Greek will be required to take 302 or 308 as a five-hour course, two hours of which will be devoted to Greek writing.

Given in alternate years with 308b; not offered in 1958-1959

303c. PLATO: Selected dialogues. *Miss Glick*

Spring quarter: Tuesday, Thursday, Saturday 11:10

Credit: Three quarter hours

Prerequisite: Greek 202

Given in alternate years with 307c; not offered in 1958-1959

305a. GREEK TRAGEDIES. Sophocles: selected plays. *Miss Glick*

Fall quarter: Tuesday, Thursday, Saturday 11:10

Credit: Three quarter hours

Prerequisite: Greek 202

Given in alternate years with 301a; offered in 1958-1959

307c. GREEK HISTORY. Selections from Herodotus or Thucydides.
Miss Zenn

Spring quarter: Tuesday, Thursday, Saturday 11:10

Credit: Three quarter hours

Prerequisite: Greek 202

Given in alternate years with 303c; offered in 1958-1959

308b. ARISTOPHANES: Selected plays. *Miss Zenn*

Winter quarter: Tuesday, Thursday, Saturday 11:10

Credit: Three or five quarter hours

Prerequisite: Greek 202

A student whose major subject is Greek will be required to take 302 or 308 as a five-hour course, two hours of which will be devoted to Greek writing.

Given in alternate years with 302b; offered in 1958-1959

350 a or b or c. **ADVANCED READING COURSE.** Selections from Greek prose and poetry, not covered in other courses, chosen to meet the needs of individual students.

Offered each quarter: Hours to be arranged

Credit: Three or five quarter hours

Prerequisite: Greek 202

Latin

101. **LATIN FUNDAMENTALS.** An introduction to the fundamentals of Latin grammar and to the reading of Latin authors. *Mrs. Young*

Throughout the year: Hours to be arranged

Credit: Nine quarter hours if taken as a fourth language, or if followed by Latin 104

104. **INTERMEDIATE.** First quarter: systematic review of principles of syntax; second and third quarters: Virgil, Aeneid I-VI. *Miss Zenn*

Throughout the year: Tuesday, Thursday, Saturday 8:30

Credit: Nine quarter hours

Prerequisite: Two entrance units in Latin, or Latin 101

106. **SELECTED LATIN LITERATURE.** Selections chosen from a variety of Latin authors according to the needs of the class. *Mrs. Young*

Throughout the year: Monday, Wednesday, Friday 8:30

Credit: Nine quarter hours

Prerequisite: Three entrance units in Latin, or Latin 104

150. **LATIN LITERATURE OF THE FIRST CENTURY B. C.** Reading from writers of prose and poetry, including one of Cicero's philosophical essays and Horace's Odes and Epodes. *Miss Glick*

Throughout the year: Monday, Wednesday, Friday 11:10

Credit: Nine quarter hours

Prerequisite: Three or four entrance units in Latin, or Latin 104, or Latin 106

In exceptional circumstances, the last two quarters can, with the permission of the department, be taken for six hours credit.

- 201a. ROMAN COMEDY. Selected plays from Plautus and Terence.
Miss Zenn
Fall quarter: Tuesday, Thursday, Saturday 12:10
Credit: Three quarter hours
Prerequisite: Latin 150, or 104 or 106 with permission of the instructor
- 202b. ROMAN SATIRE. Selections from Horace. *Miss Glick*
Winter quarter: Tuesday, Thursday, Saturday 12:10
Credit: Three quarter hours
Prerequisite: Latin 150
- 204c. PLINY AND MARTIAL. *The Staff*
Spring quarter: Tuesday, Thursday, Saturday 12:10
Credit: Three quarter hours
Prerequisite: Latin 201 or 202
- 302b. CATULLUS AND THE ELEGIAC POETS. *Mrs. Young*
Winter quarter: Hours to be arranged
Credit: Three quarter hours
Prerequisite: Six quarter hours of 200 grade
Given in alternate years with 306b; not offered in 1958-1959
- 303c. LUCRETIUS: De Rerum Natura. *Miss Glick*
Spring quarter: Hours to be arranged
Credit: Three quarter hours
Prerequisite: One course of 300 grade
Given in alternate years with 308c; offered in 1958-1959

Winter quarter: Monday, Wednesday, Friday 2:00-3:30

Credit: Five quarter hours

Prerequisite: Economics 201 or 301

Given in alternate years; not offered in 1958-1959

314b. ECONOMICS OF CONSUMPTION. A study of the forces underlying and governing consumption. Levels and standards of living studied in the light of data made available through research. *Miss Smith*

Winter quarter: Tuesday, Thursday 2:00-3:30

Credit: Three quarter hours

Prerequisite: Economics 201 or 301, or Sociology 203

Given in alternate years; not offered in 1958-1959

315c. ECONOMIC AND SOCIAL SYSTEMS. A comparative study of the organization of economic life under capitalism, socialism, communism, fascism. *Miss Mell*

Spring quarter: Monday, Wednesday, Friday 2:00

Credit: Three quarter hours

Prerequisite or corequisite: Economics 201 or 301

Given in alternate years; not offered in 1958-1959

320c. AGRICULTURE IN THE AMERICAN ECONOMY. The place of agriculture in the national economy and basic economic principles underlying it, together with an analysis of its relationship to rural social institutions. *Miss Mell*

Spring quarter: Monday through Friday 8:30

Credit: Five quarter hours

Prerequisite: Economics 201 or 301

Given in alternate years; offered in 1958-1959

325b. BUSINESS AND GOVERNMENT. The role of government in American economic life. The development of government control of monopoly, unfair competition, and competitive practices in general. *Miss Mell*

Winter quarter: Monday through Friday 12:10

Credit: Five quarter hours

Prerequisite: Economics 201 or 301, or History 215

Given in alternate years; offered in 1958-1959

Sociology

203a-b. INTRODUCTION TO SOCIOLOGY. Current sociological theory as it relates to social origins, social processes, social institutions, and social control; integration of theory with social problems and social direction. *Miss Smith*

Fall and winter quarters:

Section A: Monday, Wednesday, Friday 8:30

Section B: Tuesday, Thursday, Saturday 8:30

Credit: Six quarter hours

To meet the group requirement, this course must be followed by Sociology 205.

205c. PROBLEMS OF CONTEMPORARY AMERICAN SOCIETY. Analysis of American society in terms of the need for mastery of the physical, technical, and societal forces that challenge contemporary society. A continuation of 203. *Miss Smith*

Spring quarter:

Section A: Monday, Wednesday, Friday 8:30

Section B: Tuesday, Thursday, Saturday 8:30

Credit: Three quarter hours

Prerequisite: Sociology 203

311b. THE FAMILY. The family as a social and educational institution. The historical background of present-day family organization; factors in the modern community which tend to alter and disrupt family life; analysis of the significance of the family in social organization. *Miss Mell*

Winter quarter: Monday through Friday 8:30

Credit: Five quarter hours

The Department of Education does not offer a major. Teacher education at Agnes Scott is a college-wide enterprise, and the Department of Education exists only as one of many departments that contribute to the future teacher's curriculum. In order to provide the strongest faculty possible and to enrich course offerings, Agnes Scott College and Emory University cooperate in sponsoring the Agnes Scott-Emory Teacher Education Program. Programs in the various teaching fields are planned by the Committee on Teacher Education representing both institutions. Copies of planned programs are available from the Director of Teacher Education, who is responsible for coordinating resources on both campuses.

Students planning to teach at the secondary level major in a teaching field — that is, one of the subjects normally taught at the high school level such as English, history, mathematics. They include Education 301, 303, 401S, 402, and 404 in their programs.

Students planning to teach at the elementary-school level must meet the following requirements: (1) Completion of any major offered by the College; (2) Completion of Education 301, 303, 304, 401E, 402, and 404; (3) Completion of thirty quarter hours in work designated as "special fields for elementary-school teachers." A minimum of fifteen of these hours must be selected from art (Section B of Art 199a and/or 199c strongly recommended), music (340a recommended), and physical education (recreational leadership required). The remaining hours are to be selected from the following: Biology 101 (five of these hours count toward the required thirty); Sociology 317; Speech (105, 201, or 308);

Library Science 315 (Books and Related Materials for Children and Young People, offered at Emory for three or five quarter hours of credit, spring quarter); History 215 (five of these hours count toward the required thirty) or Political Science 201 (five of these hours count toward the required thirty) or Political Science 308.

Students who plan to teach should begin to plan programs early — in no case later than the end of the sophomore year. They must take Psychology 201 in the sophomore year. Mr. Henderson and Miss Howell will advise students in regard to requirements and assist in planning for necessary courses. Beginning with the class of 1960, certain grade requirements must be met by students applying for admission to the teacher education program. These requirements are posted.

Upon successful completion of a planned program at graduation, students fill out an application blank and are approved automatically for certification to teach in Georgia. Out-of-state students should present certification requirements for their respective states at the time of projecting programs in order that proper guidance may be given.

Note: Students planning to do graduate work in Speech Correction at Emory University are urged to major in psychology (including Psychology 214, Physiological Psychology, available at Emory University), and to meet requirements for elementary-school teaching. Tuition grants are available to qualified students seeking to enter this graduate field.

PHYSICAL EDUCATION

Associate Professor WILBURN

Assistant Professor LAPP

Assistant Professor MCKEMIE

Mrs. BERSON

Physical education is required of all students three hours a week during the first two years. Students entering with advanced standing credits, but with additional credit to earn in physical education, are required to take physical education in their first quarter or quarters of residence. The requirement includes the passing of a college swimming test, a team sport, an individual sport, and dancing.

A sport suit of uniform design for physical education classes is required of all entering students. Blanks for ordering this outfit are sent during the summer, and must be returned promptly with payment to the designated firm. Full instructions are given on the order blank. The College furnishes dance leotards, bathing suits, and towels.

Junior transfer students who have had two years of physical education need not order suits before arriving at college.

101. COURSES FOR FIRST-YEAR STUDENTS.

Fall quarter: Dancing, hockey, beginner's swimming (instruction in one); three hours a week.

Winter quarter: Instruction in one of the activities listed under 201; three hours a week.

Spring quarter: Instruction in one of the activities listed under 201; three hours a week.

201. COURSES FOR SECOND-YEAR STUDENTS. Instruction in one of the following activities.

Fall quarter: Archery, dancing, hockey, swimming, tennis, riding

Winter quarter: Badminton, basketball, body mechanics, dancing, Red Cross course in senior life saving and water safety, swimming, volleyball, fencing, riding, tumbling

Spring quarter: Archery, golf (special fee charged), Red Cross instructor's course in life saving and water safety, recreational leadership, softball, swimming, tennis, volleyball, riding

Dance Group. The aim of the dance group is to acquire a broad understanding of the art through the study of modern dance and ballet techniques. Special emphasis is placed on creative studies and principles of composition. Admission is by tryout. A studio recital is given during the winter quarter, and a major production is planned for spring.

Intramural Sports. Sponsored by the athletic association and the department of physical education. Tournaments are scheduled in archery, badminton, basketball, golf, hockey, ping-pong, softball. Meets and water shows are scheduled in swimming.

The required pre-admission physical examinations are carefully screened by the college physician. Students who have abnormalities disclosed confer with the physician immediately. Recommendations of the family physician are given consideration, and close supervision is provided when needed.

PHYSICS AND ASTRONOMY

Professor CALDER

Mrs. CLAYTON

Physics

101. GENERAL PHYSICS. Properties of matter, mechanics, sound, heat, electricity, magnetism, and light. Lectures illustrated by experiments, supplemented by problems and individual laboratory work.

Throughout the year: Monday, Wednesday, Friday 12:10

Laboratory: Monday or Thursday 1:40-4:40

Credit: Twelve quarter hours

Prerequisite or corequisite: Mathematics 101

120c. ELEMENTARY PHOTOGRAPHY.

Spring quarter:

Section A: Monday, Wednesday 8:30

Section B: Tuesday, Thursday 8:30

Credit: Two quarter hours

This course may not be counted toward the physics major.

201a. LIGHT. Geometrical optics.

Fall quarter: Tuesday, Thursday 12:10

Laboratory: Tuesday 1:40-4:40

Credit: Three quarter hours

Prerequisite: Physics 101

Given in alternate years; not offered in 1958-1959

202b. LIGHT. Physical optics.

Winter quarter: Tuesday, Thursday 12:10

Laboratory: Tuesday 1:40-4:40

Credit: Three quarter hours

Prerequisite: Physics 101

Given in alternate years; not offered in 1958-1959

301a or a-b. HEAT, THERMODYNAMICS, AND KINETIC THEORY OF GASES.

Fall and winter quarters: Monday, Wednesday 8:30

Laboratory: Monday 1:40-4:40

Credit: Three or six quarter hours

Prerequisite: Physics 101

Open to sophomores, juniors, and seniors
Given in alternate years; offered in 1958-1959

302a or a-b. ELECTRICITY AND MAGNETISM.

Fall and winter quarters: Tuesday, Thursday 12:10
 Laboratory: Tuesday 1:40-4:40

Credit: Three or six quarter hours

Prerequisite: Physics 101

Open to sophomores, juniors, and seniors

Given in alternate years; offered in 1958-1959

303c. MECHANICS.

Spring quarter: Hours to be arranged

Credit: Three quarter hours

Prerequisite: Physics 101

Open to sophomores, juniors, and seniors

Given in alternate years; not offered in 1958-1959

306c. ELECTRONICS.

Spring quarter: Tuesday, Thursday 12:10

Laboratory: Hours to be arranged

Credit: Three quarter hours

Prerequisite: Physics 101

Open to sophomores, juniors, and seniors

Given in alternate years; offered in 1958-1959

350. ATOMIC PHYSICS.

Throughout the year: Monday, Wednesday, Friday 8:30

Credit: Nine quarter hours

Prerequisite: Physics 101; prerequisite or corequisite:
 Mathematics 203, 204

Given in alternate years; not offered in 1958-1959

410c. SPECIAL STUDY. A course (for majors only) to meet the needs of the individual student. Opportunity is given for independent study or experiment in some field of interest.

Spring quarter: Tuesday, Thursday 12:10

Laboratory: Hours to be arranged

Credit: Three quarter hours

Given in alternate years; offered in 1958-1959

Requirements for the Major

Basic course: Physics 101

Required courses: Twenty-four additional hours in Physics. Physics 350 is recommended.

Required mathematics courses: Mathematics 101, 202, 203, 204

Elective courses to meet the requirement of related hours must be approved by the department.

Students planning an interdepartmental major in science must consult the department of primary interest.

Astronomy

151a. DESCRIPTIVE ASTRONOMY. Historical introduction, constellation study, celestial sphere, moon, instruments, and telescopic observation.

BUILDINGS, GROUNDS, AND EQUIPMENT

THE COLLEGE has a campus of sixty-two acres. The main buildings are brick and stone and those of more recent construction are modern Gothic in design. Dormitories are completely equipped with sprinkler systems and fire escapes.

BUTTRICK HALL, the classroom-administration building, was erected in 1930 through the support of the General Education Board of New York and is named in honor of Dr. Wallace Buttrick, former president of the Board. It contains administrative and faculty offices, classrooms, the art studios and gallery, day student lounge, and the college post office, bookstore, and bank.

THE MCCAIN LIBRARY, erected in 1936, was named in honor of President Emeritus James Ross McCain by action of the Board of Trustees June 1, 1951.

The Agnes Scott collection numbers about 70,000 volumes, and 275 periodicals are received currently. The two main reading rooms seat 250 students, and an additional 250 can be accommodated in the carrels, the seminar and lecture rooms, and the outdoor reading terrace. There are six floors of open stacks.

Supplementing the bibliographical resources of the Agnes Scott library are Union Catalogues at Emory University and the University of Georgia of the holdings of thirty libraries in the Atlanta-Athens area. About one million and a half volumes are represented. Reciprocity in the libraries of this area, particularly between Agnes Scott and Emory, is a feature of the University Center program.

PRESSER HALL, completed in 1940, bears the name of Theodore Presser, Philadelphia music publisher whose Foundation contributed toward its erection. The building contains Gaines Chapel, Maclean Auditorium, and facilities for the teaching of music, including soundproof studios and practice rooms.

THE FRANCES WINSHIP WALTERS INFIRMARY, completed in 1949, has capacity for thirty patients. The building is named in honor of the donor, an alumna and trustee of the College.

THE LETITIA PATE EVANS DINING HALL, completed in 1950, is named in honor of its principal donor, Mrs. Letitia Pate Evans of Hot Springs, Virginia. The building has four separate dining rooms, with the main hall large enough to accommodate the entire student body.

THE JOHN BULOW CAMPBELL SCIENCE HALL, completed in 1951, is named in honor of a former trustee of the College. The building contains a total of seventy-seven rooms, including twenty laboratories, five lecture rooms, a large assembly room, a library, a museum, and departmental offices.

THE BRADLEY OBSERVATORY, erected in 1949, houses the 30-inch Beck Telescope, a planetarium, lecture room, photographic dark room, optical shop for making telescopes, laboratory space, and a library.

ALL DORMITORIES are located on the campus. Agnes Scott Hall, Rebekah Scott, Inman, Hopkins, and Walters Hall are the main dormitories. Additional units are Sturgis, Ansley, Gaines, and Hardeman houses, also located on campus.

BUCHER SCOTT GYMNASIUM-AUDITORIUM is the center of athletic activities. Basketball and badminton courts, an auditorium, swimming pool, and offices of the physical education directors are located here. Adjacent to the gymnasium are an athletic field for hockey, archery, and softball; four all-weather Laykold tennis courts; and the May Day Dell.

Other buildings on the campus include the President's Home, the Murphey Candler Student Activities Building, and the Anna Young Alumnae House.

Rooms

All rooms are at the same rate, whether double or single. Each room is furnished with single beds, mattresses and pillows, dressers, chairs, study table, student lamp, bookcase, and waste basket. Students will supply their own bed linen, blankets, curtains, rugs, and towels. Radios are permitted.

COMMUNITY ACTIVITIES

Extra-Curricular Program

THE STUDENT ORGANIZATIONS and publications occupy an important place in the life of the college community. They are supported in part by a comprehensive fee charged each student. This appropriation is distributed among the following: Student Government Association, Athletic Association, the Student Handbook, Mortar Board, Pi Alpha Phi, Lecture Association, Blackfriars, May Day Committee and Dance Group, Social Council, National Student Association, International Relations Club, the literary magazine, the annual, and the weekly newspaper.

The Student Government Association is based upon a charter granted by the faculty and has for its purpose the ordering and control of campus life. Its membership includes all students.

Agnes Scott Christian Association is organized to develop the spiritual life of the students and to cooperate with other student associations in general Christian work. Most of the student body are members.

Athletic Association cooperates with the department of physical education in the management of sports and sponsors inter-class games, tournaments, swimming meets, and general recreational activities. Individual interests and skills are developed through various sports clubs.

Lecture Association, an organization of students and faculty, brings lecturers to the college community.

Publications include the "Aurora," a quarterly literary magazine; the "Silhouette," the student yearbook; the "Agnes Scott News," the campus weekly; and "The Stu-

dent Handbook," a manual of information issued annually by the student associations.

Clubs directed by students or by students and faculty together provide opportunity for development of special interests and talents. Membership in most of these is open by try-out. They include language clubs, Pi Alpha Phi debating society, Blackfriars dramatic club, the Dance Group, Dolphin Club, Glee Club, Guild Student Group (chartered by the American Guild of Organists and sponsored by the Atlanta chapter), International Relations Club, Music Club (affiliated with the Georgia Federated Music clubs), Psychology Club, and several creative writing groups. National honor societies include Mortar Board (service and leadership); Eta Sigma Phi (classics); Sigma Alpha Iota (music); and Chi Beta Phi (science).

Art and Music

One of Agnes Scott's major responsibilities in the University Center is the development of the Fine Arts. This the College seeks to do through its program of instruction and through general contributions to the cultural life of the community. Exhibitions of paintings, prints, crafts, and other objects of art are held periodically in the College Art Gallery; and throughout the year concerts are presented by the faculty of the music department and by artists from the Atlanta area. All of these events are open to the public without charge.

Religious Life

Every effort is made to promote the students' religious life. They are asked to select the church they desire to make their church home and are encouraged to attend this church regularly.

Devotional exercises are held in chapel every morning except Monday. The Wednesday service is a College Con-

vocation which all students are expected to attend. Although attendance at other chapel services is voluntary, students are urged to be present regularly. Other religious programs include Sunday evening vespers conducted by Christian Association and the tri-weekly vesper services led by members of the faculty.

Health Service

The student health service is under the direction of the college physician and her staff.

Each new student is required to submit a certificate of complete examination by her family physician, a certificate of successful vaccination within six years, a certificate of prophylactic immunization against tetanus within one year of entrance to college, a report on a chest X-ray made within six months, and a complete medical history report. Blanks for this information are forwarded during the summer.

Each new student is urged to have ophthalmological and dental examinations during the summer preceding admission.

The students' health needs are met as far as possible by the medical department. The comprehensive fee charged all students includes ordinary infirmary and office treatment for resident students, and emergency treatment for non-resident students. If there is need for such special medication as antibiotics, hypodermic injections, vitamins, prescriptions, X-rays, special diet, etc., the expense is met by the individual. Resident students should consult the college physician before seeking medical or dental care in Atlanta. Consultants are called in at any time upon request.

The College reserves the right, if the parents or guardians cannot be reached, to make decisions concerning emergency health problems. The parent is expected to sign the necessary forms to give the College this right.

Counseling

While each student is encouraged to be increasingly self-reliant in college and community life, the College realizes the value of advisory assistance in developing individual interests and ability. Academic counseling is done by the Dean of the Faculty, the major professors, and designated members of the faculty.

General counseling of students, particularly in relation to non-academic matters and social and extra-curricular activities, is centered in the office of the Dean of Students.

Placement Service

The College operates a placement service through the office of the Dean of the Faculty. Confidential reference files are maintained in the office of the Registrar for all graduates and are sent to prospective employers on request. There is no charge for the service.

A vocational information service is conducted by an Assistant Dean of Students.

On or before July 1 (not refundable)	200.00
On entrance in September	725.00
January 1	500.00
May 1 (diploma fee; seniors only)	5.00

Payment of Fees

Checks covering items listed above are not to include funds for any other fees or for the student's personal account. Payments are to be made direct to the Treasurer on the specified dates. Registration in September will be facilitated if check is sent prior to the student's arrival.

A patron who finds it necessary to request deferred pay-

ment of his account is asked to make special arrangements with the Treasurer in advance of the due date. In all such cases notes are to be signed in advance. They bear interest at six per cent from date payment was due.

Notes cannot be accepted for the payment for resident students due July 1.

Discounts

A discount on tuition of \$100.00 is made to resident students whose fathers are ministers; a discount of \$50.00 is made to non-resident students whose fathers are ministers.

Half of all discounts will be credited on the September payment and half on the January payment. Students who receive discounts must be registered for the entire session.

Music and Speech Fees

Fees for private lessons in Music and Speech are to be paid after permission for the lessons has been secured from the course committee. Treasurer's receipt for payment must be presented to the instructor before admission to class can be granted.

Piano tuition (including practice)	\$165.00
Organ tuition (including practice)	180.00
Voice (including practice)	165.00
Violin (including practice room)	165.00
Speech	115.00

The above fees are payable in full in September, or half in September and half on January 1. If one lesson weekly is permitted in applied music or in speech, the charge will be half of the regular fee.

Terms

No student will be admitted for less than a full quarter.

No refunds of any nature are made because of the with-

drawal of a student. No adjustment in fees can be made when a student changes from boarding to day student status, or when she attends only one or two quarters of the session, unless arrangements are made in advance of the opening of the session in September.

A student may not attend classes or take examinations until accounts have been satisfactorily adjusted with the Treasurer.

All financial obligations to this college must be met before a student can be granted a diploma, or before a transcript of record can be issued to another institution. Transcripts are sent direct to institutions except in unusual cases. There is no charge for the first transcript, but a charge of \$1.00 is made for each additional copy.

The College does not provide room and board for resident students during the Christmas vacation. The dining hall and dormitories are closed at this time.

The College exercises every precaution to protect property of students, but will not be responsible for any losses that may occur.

It is understood that upon the entrance of a student her parent or guardian accepts as final and binding the terms and regulations outlined in the catalogue.

Personal Accounts

Money may be deposited in the college bank to the account of a student and is payable on her checks. No account other than the cancelled checks is kept.

Books and supplies may be purchased for cash in the bookstore. The College suggests that \$60.00 or \$70.00 be brought for this purpose.

In cases of prolonged illness or contagious diseases, students must provide a nurse at their expense and must pay for medicines and for consultations.

SCHOLARSHIP AND SPECIAL FUNDS

Scholarship and Loan Program

THE INCOME from a limited number of endowed funds is available for students who need financial assistance in order to attend Agnes Scott. All of the awards except special ones made at Commencement are subject to renewal each year, in whole or in part, provided the need continues to exist and the student's academic progress is satisfactory. Students already in residence receive instructions before the end of the winter quarter regarding procedure for filing application. Entering students will receive instructions from the Office of Admissions and are urged to obtain these instructions before January 1.

Agnes Scott participates in the College Scholarship Service of the College Entrance Examination Board. This Service is a cooperative undertaking among colleges to foster the distribution of financial aid on the basis of actual need. All new students applying for financial assistance from Agnes Scott will be furnished the Parents' Confidential Statement form which is to be filled out and filed with the College Scholarship Service.

The three types of financial assistance are described below.

1. *Honor Scholarships.* A maximum of twenty one-year scholarships will be awarded to high school seniors who are selected on the basis of ability, achievement, and promise; actual stipends are determined in relation to financial need and may range from \$100 to \$800 in amount. No duties will be required during the freshman year; duties will be required for all or part of such awards if they are renewed for any subsequent year.

Several one-year scholarships are awarded at Commencement to students already in residence who have achieved distinction in academic work or in art, music, and speech. These scholarships are not applied for by the students themselves and are not awarded on the basis of financial need.

2. *Service Scholarships.* Students may apply for scholarships which require some service in return. Grants range from \$75 to \$250; the amount of time required varies from three to ten hours per week, depending upon the amount of aid received. Grants for freshmen average \$100.

3. *Loans.* Income from a few special funds is available for small loans which bear no interest while the student is in residence. If an applicant's need exceeds the resources available at Agnes Scott, the College is often able to assist her in securing aid from one of several educational loan foundations established for the purpose.

REGISTER OF STUDENTS

September, 1957

Classification

Members of the classes of 1958, 1959, and 1960 are classified in accordance with regulations in effect at the time of entrance; these regulations are posted on the official bulletin board opposite the Registrar's office. Members of the class of 1961 and of subsequent classes are classified in accordance with the requirements outlined below:

FRESHMEN:

Upon satisfaction of all requirements of the Admissions Committee, provided the regular freshman program of studies is elected. In this classification are listed second-year students who have not been admitted to sophomore standing.

SOPHOMORES:

1. A minimum of 30 quarter hours of degree credit and 24 quality points, or a sufficient number of quality points plus the number of credits earned to total 54. In no case may the number of degree hours earned be less than 30.
2. A minimum of 9 hours of grade C or above.
3. Sufficient hours scheduled to give a total of 78 quarter hours of degree credit at the end of the session.

JUNIORS:

1. Completion of 78 quarter hours of degree credit.
2. A minimum of 60 quality points, and a minimum of 18 hours of grade C or above earned during the preceding session.
3. Sufficient hours scheduled to give a total of 129 quarter hours of degree credit at the end of the session.

SENIORS:

1. Completion of 129 quarter hours of degree credit.
2. A minimum of 120 quality points, and a minimum of 21 hours of grade C or above earned during the preceding session.
3. Sufficient hours scheduled during the current session to give a total of 180 quarter hours of degree credit.

ALUMNAE ASSOCIATION

ANN WORTHY JOHNSON, B.A., M.A. . . . *Director of Alumnae Affairs*

DOROTHY WEAKLEY, B.A. *Office Manager*

ELOISE HARDEMAN KETCHIN *House Manager*

ORGANIZED in 1895, the Alumnae Association of Agnes Scott College has as its purpose the promotion of its members' interest in the College and in liberal education. Its work is done under the authority of an Executive Board composed of officers, committee chairmen, and the presidents of the four nearest alumnae clubs. Branches of the Association, in the form of Agnes Scott alumnae clubs, are active in thirty-five cities.

The Alumnae Association operates the Anna Young Alumnae House, which comprises the Association offices, reception rooms, and guest rooms for alumnae and other visitors. The Alumnae Office publishes *The Agnes Scott Alumnae Quarterly*, conducts the Alumnae Fund, and maintains files of information on more than 9,000 individual alumnae. Volunteer committees, under the governance of the Executive Board, carry on services including house and grounds improvement, planning of special events and entertainments, presentation of an annual career conference for students, correspondence with class and club officers, and a continuing program to make alumnae an active force in American education.

Officers for 1957 are Mrs. C. Dixon Fowler, president; Mrs. Frederick B. Law, Jr., Mrs. E. N. Riddle, and Mrs. Salvador Andretta, vice-presidents; Mrs. Al Richardson, secretary; and Mrs. D. A. Lackey, treasurer.
